———, Dr. R., death of, 104; obituary notice of, 145
Addison's disease, 327, 361, 395, 429, 463, 532
Addy, Dr. B., partial hemiplegia with amnesia occurring after scarlatina, 643
Adelaide, out-patient relief in, 220
Adenoma, large cystic, of the breast, 792
Adipose development, excessive, 72
Adulteration of food and drugs, 180, 275, 309, 355, 411, 452, 522, 621, 628, 739, 773, 839, 873; in Dublin, 560
Air-passages, mortality from diseases of the, 363
Alcohol, the Cantor lectures on, 241; free administration of, in a case of carditis, 856
Alcoholic poisoning, acute, 13
Alder, Dr., the case of, 801
Allbutt, Mr. H. A., night-soil carts, 881
Allen, Mr. M., The Gold Coast, or a Cruise in West-African Waters (review), 273
Amaurosis, colour sight in some cases of, 85
Ambulances, 138
Ammonia treatment of snake-bites, 871
Amputation, acute mania during the after-treatment of, 73
Amputations, fees for, 907
Analysts, public, 698; Society of, 31, 253
ANALYTICAL RECORDS.—New food for infants, children, and invalids, 274—Walker's digestive biscuits, ib.—Aroud's ferruginous wine and syrup, and wine with chinchona, ib.—Mackay's omphalic mustard plasters, ib.—Orezza waters, 702—Koumiss, ib.—Sugar-coated pills, ib.
Anæsthesia, the pupil during, 549
Anæsthésiques et sur l'Asphyxie, Leçons sur les (review), 408
Anæsthetics, the danger of, 32
Andral, Professor, 221
Andrews, Dr. H. C., inquests and police, 913
Anerley schools, the, 98
Aneurism, of the femoral artery, 12, 47; of the mitral valve, 49; of the arteria innominata, ligature of the common carotid and subclavian simultaneously, 192; of the left common femoral artery, ligature of the external iliac, 269; double, of the thoracic aorta, 270; of the right common iliac artery, 333; of the heart, 338; of the aorta, ib.; intra-cranial, 546; traumatic popliteal, arterio-venous, treated successfully by ligature of popliteal artery and vein, 568; on the surgical treatment of, 599, 637; left subclavian, treated by temporary compression applied directly to the artery in the first part of its course, 612; of the left and right popliteal arteries, cured by pressure and flexion, 680; aortic, spontaneously cured, 725; of the aorta, dissecting, rupturing into left pleural cavity, 758; arterio-venous, of the femoral vessels, 793
Aneurismal compression for two years, 358
Anglo-Saxon stomachs, 140
Ankle-joint, excision of the, 681
Annandale, Mr. T., traumatic popliteal arterio-venous aneurism treated successfully by ligature of the popliteal artery and vein, 568
Anstie, Dr., memorial to the late, 250; portrait of, 352
Antiseptic surgery, recent improvements in the details of, 365, 401, 434, 468, 603, 717, 787; German testimony to, 485
Aorta, occlusion of coronary arteries by atheroma of the, 271; annular constriction of the, 725
Apology, an, 380
Apoplexy, inhalation of oxygen in, 779
Apothecaries' Hall, pass-lists of, 34, 181, 218, 322, 356, 390, 424, 458, 491, 525, 560, 593, 632, 666, 708, 742, 778, 844, 878, 911; proposed reform in bye-laws of, 880, 912
Arctic expedition, the, 26, 628, 762, 868; teetotalism and the, 800; the medical service of the, 518
Army estimates, 308
——— recruits, 28, 316, 391, 622
——— medical service, 26, 66, 72, 135, 184, 221, 244, 253, 280, 324, 348, 356, 359, 381, 392, 417, 449, 559, 634, 655, 669, 767, 781, 846; Present State of the (review), 17; emoluments of officers in the, 185; organisation of the, 412, 445, 478; Pamphlets on the (review), 693; deputation to the War Office, 807
——— medical school, opening of the summer session of the, 558
Aroud's ferruginous wine and syrup, and wine with chinchona, 274
Arsenic in rivers, 150
Arterial pressure, the physiological action of compressed air on, 420
Arteries, on the surgery of the, 39, 77, 293, 499, 531; temporary deligation of, 706
Artisans and Labourers' Dwellings Bill, the, 448, 552
Ashley fund, 494
Ashton, Mr. J. H., fracture of the epiphysis of the trochanter major and its consequences, 231
Aspirators, 203, 257
Assistants, unqualified, and branch practices, 73
Astragalus, dislocation of the, 724
Atheroma, obstruction of the renal artery by, 271
Atlas, fracture of the, paralysis, death, 756
Atthill's Lectures on the Diseases of Women (review), 832
Austria, life assurance in, 149

Baby farming, 453
Bader, Mr. C., the dangers of chloroform &c., and the nitrite of amyl, 644
Bakewell, Dr. R. H., the cure of leprosy, 812
Balloon ascent in France, the fatal, 584
Baly medal, the, 782
Bandages, old, the system of using, 667
Barnes, Dr. G. R., croup and diphtheria, 563
———, Dr. R., on affections of the bladder in their relation to uterine and peri-uterine diseases, 5, 187, 640; on puerperal fever, 686
———, Mr. C. H., obituary notice of, 380
Barwell, Mr. R., on scarless eradication of nævi, 642; varicocele and its curative operation by the subcutaneous wire loop, 820
Bastian, Dr. H. C., on the germ theory of disease, 400, 501, 682
Bateman, Mr. W., health of Folkestone, 559
Bath, free library at, 591
Bayes, Mr. W., the Birmingham Medical Institute and homœopathy, 400
Bayly, Mr. M., Brighton beach, 109
Beale, Dr. L. S., on life and on vital action in health and disease, 398, 432, 467, 568, 671, 715; Dr. Sanderson's speech on the germ theory of disease, 558
Bed, a mechanical, 108
Beer, adulteration of, 315; good, 845
Begbie, Dr. J. W., on the mortality of the insured, 905
Beggars' Bush barracks, 520
Belfast dispensaries, the, 519
Bennett, Mr. C. F., a caution, 218
Bequests &c., 70, 123, 181, 203, 254, 322, 356, 390, 425, 491, 560, 594, 632, 675, 762, 810
Berlin, underground mortality in, 449; the medical school of, 706, 875
Bermondsey, mortality returns in, 520
Bernard, M. C., Leçons sur les Anæsthétiques et sur l'Asphyxie (review), 408
Berry, Mr. W., male hysteria, 71
"Bessemer," the, 704
Best, Dr. V., obituary notice of, 707
Biggs, Mr. R., aspirators, 257
Bile acids, the action of the salts of the, on the system, 65; action on the economy of the derivates of the, 801
Biliary calculi, treatment of, 18
Billing, Dr. A., on the Nature and Treatment of Asiatic Cholera (review), 859
Biogenesis, 447
Biologists, the battle of the, 61
Birch, Dr. R. W. P., typhoid fever among the upper classes, 217
BIRMINGHAM.—The Medical Institute, 287, 632, 877—A sanitary census, 287—The death-rate of Birmingham, ib.—Medical charities, ib.—Laws of Health chair, ib.—Hospital Saturday, 491—Increase of the "improvement rate," ib.—The Queen's Hospital, 491, 777—The medical officer of the West Bromwich Union, 491, 777—Jaborandi, 491—Health of Birmingham, 631—Public fever wards, ib.—The Midland Medical Society, 632—The new staff of sanitary inspectors, 777—The sewage works of Yardley, ib.—Compliment to a medical officer, ib.—Dr. Birt Davies, 877—Health report of the town, ib.—New appointments at Queen's College, ib.—Operations at the General Hospital, ib.

Bryant, Mr. T., on the least sacrifice of parts as a leading principle of surgical practice, 117, 154, 189, 263, 330
Buchanan, Dr. A., examinations in physiology in the Glasgow University, 661
——, Dr. A. M., presentation to, 526
Buckle, Mr. T., Mr. Stansfeld again, 881
Buller, Mr. F., a new ophthalmic operation, 661
Burci, Senator, obituary notice of, 390
Burnham, sanitary condition of, 590
Bursa patellæ, hypertrophied, 50
Burying the dead, 221
Buzzard, Dr. T., on the differential diagnosis of disseminated cerebro-spinal sclerosis and paralysis agitans, 545
Byrne, Dr. J., Clinical Notes on the Electric Cautery in Uterine Diseases (review), 859

Cabmen, shelter for, 103, 393
Cadle, Dr. J. F., the late, 66
Cæcum, rupture of the, 50
Calabar bean, tetanus treated with, 13
Calculus, extraction of a, from the bladder through a vesico-vaginal fistula; recovery and departure from the hospital; death three months afterwards, 404; in the ureter, ib.
Callender, Mr. W., on puerperal fever, 691; on a case of neuralgia treated by nerve stretching, 883
Cam, purification of the, 769, 804, 812
Cambridge, State medicine at, 213, 242, 771; extension of university education at, 309; science at, 416; medical officership of health of, 521, 553, 589, 736; University of, 181, 197, 911; natural science scholarships at, 65
Cameron, Dr. C., Manual of Hygiene (review), 130
Canada, subjects for anatomical demonstration in, 498, 780
Cane, Dr. L., case of pyæmia in private practice, 822
Cantor lectures on alcohol, 241
Carbolic acid in syphilis, 814
Cardiac weakness as a consequence of railway collisions and other accidents, 299
Cardiograph, on a new form of, 682
Carlisle, fever in, 142, 179
Carpenter, Dr. A., on the rational treatment of certain forms of hemiplegia, 374
——, Mr. W. G., inflammation successively attacking four different parts of the body in one illness, 230
Carr, Dr. W., croup and diphtheria, 705, 845, 881
Carter, Mr. R. B., ether v. chloroform, 68
Castle Cary, the temporary scarlet fever hospital at, 710
Castle, Dr. H., Interment or Cremation (review), 202
Catalepsy, followed by epilepsy, case of, 42; case of, at Cochin Hospital, 813
Cataract, cases of, 438, 472, 610; zonular, teeth usually met with in, 336
Catheter staffs, 876
Cavafy, Dr. J., male hysteria, 71, 147
Central Middlesex, deputy coroner for, 114
Cephalotripsy, 307
Cerebral disease, sudden death in cases of, 85
—— tumours, death by hæmorrhage from, 85
Cerebro-spinal sclerosis and paralysis agitans, differential diagnosis of, 545
Cerebrum, electric excitability of the cortex of the, 737
Cervical spine, fracture of the, important facts as to temperature, &c., 267
Cervix uteri, cancer of the, 440; epithelioma of the, complicated with pregnancy, 441
Ceylon, cholera at, 591
Chalmers, Dr. J., the examinations in physiology in Glasgow University, 705
Chandler, Mr. H. P., chilblains, 110
——, Miss J., 147
Channel tunnel, the, 487, 563
Chapple, Surgeon-Major, case of catalepsy followed by epilepsy, 42
Charity dinners, 493
—— voting reform, 317, 528, 803, 876
Charteris, Dr. M., strychnia-poisoning, recovery by the use of chloral hydrate, 510
Chemistry, a new chair of, in Paris, 526
Cheshunt, sanitary state of, 629
Chesshire, Mr. E., the Birmingham Medical Institute, 388
Chilblains, 36, 74, 110
Childbirth, mortality after, 779
Children, exhibition of medicines to, 257
Children's country excursions, 872
—— Hospital, the proposed, 700
Chinchon, Memoir of the Countess of (review), 727
Chinchona, cultivation of, in the Mauritius, 900
Chloral, intra-venous injections of, 18; relief of pain by the external use of, 234; death from an overdose of, 322; in unilateral convulsion, 372; prevalence of the use of, 659; recovery from strychnia-poisoning by the administration of, 510; the pains of, 797, 879
Chloroform, deaths from, 255, 489
Chlorosis and anæmia, phosphide of zinc in, 308
Cholera on board the "Forfarshire," 30; treatment of, 36, 183, 631; hypodermic injections in, 108; How to Prevent it (review), 760

versity of London, 131—The contagion of puerperal fever, ib.—Mr. Stansfeld on public health administration, 133—Functions of the thalami optici, 134—Ether v. chloroform, 169—Hospitals for infectious diseases, 170—Croup and diphtheria, 171, 443—The causes and remedies of crimes of violence, 205—Sanitary legislation for sailors 206—Active dilatation of the blood-vessels, 207—The Contagious Diseases Acts, 207, 620, 903—The Queen's speech and sanitary legislation, 239—The New Naval Medical Warrant, 240, 276—The Cantor lectures on alcohol, 241—Examinations in preventive medicine at Cambridge, 242—The Adulteration of Food and Drugs Acts, 275—The grouping of districts for medical officers of health, 277—Sir William Jenner's address, ib.—The extension of University education at Cambridge, 309—Mr. Sclater-Booth's Adulteration Bill, 3 9, 411, 621—Longevity, 311—Inhibition of nervous influence, 312—The limits of vital resistance to heat, 343—The Artisans' Dwellings Improvement Bill, 344—The College of Surgeons, 345—The Public Health Bill, 376, 581—Homœopathy, 377—The marriage of cousins, 37 —The case of Mr. Peacock, of Nuneaton, 379—Army medical organisation, 412, 445, 478—Dreams, 413—Time requisite for the perception of taste, 414—The debate on the germ theory of disease, 444, 514, 619, 694—Sanitary legislation afloat, 446—The Conjoint Examination scheme, 478—Pseudo-hypertrophic paralysis, 480—The Medical Act and Philadelphian degrees, 481—The Metropolis Water Bill, 515—The Birmingham Medical Institute, 516—The question of Conjoint Boards, 548—The debate on puerperal fever, 549, 729—The pupil during anæsthesia, 549—The blood in recurrent fever, 582—The Reports of the Medical Officer of the Privy Council and Local Government Board, 585—The conveyance of puerperal fever, 620—Medical degrees for practitioners, 651—Strain and over-action of the heart, ib.—Mr. Simon on filth diseases and their prevention, 652—Lord Sandon on half-qualifications, 694—Competitive examinations, 695—Politics and medical reform, 730—The pathology of the infective processes, 731, 902—The Government and vivisection, 764—The sanitary aspects of English hospitals, ib.—"Earth to earth," 765—Action of woorara, 766—The pains of chloral, 797—The police-cells of the metropolis, 798—The election of county coroners, 799—The meeting of the General Medical Council, 833, 901—The Primary Examination for the Fellowship at the College of Surgeons, 833—The position of the vaso-motor centres, 834—Mr Gathorne Hardy and the Army Medical Service, 835—Measles in the southern hemisphere, 865—theory of sleep, 866—Extension of university education, ib.—The Hampstead Hospital, 867—The election to the Council of the College of Surgeons, 904

Lead-poisoning, unusual case of, 545

LECTURES, ETC.

ACLAND, Dr. H. W.:
Address to the General Medical Council, 861

BARNES, Dr. R.:
Clinical Lectures on Affections of the Bladder in their relation to Uterine and Peri-uterine Diseases.
Lecture I., 5
Lecture II., 187
Lecture III., 640

BASTIAN, Dr. H. C.:
Address on the Germ Theory of Disease: being a Discussion of the Relation of Bacteria and Allied Organisms to Virulent Inflammations and Specific Contagious Fevers. Delivered before the Pathological Society of London, April 6th, 1875, 501

BEALE, Dr. L. S.:
Lumleian Lectures on Life and on Vital Action in Health and Disease. Delivered at the Royal College of Physicians.
Lecture I., 398, 432
Lecture II., 497, 565
Lecture III., 671, 715

CALLENDER, Mr. G. W.:
Clinical Lecture on a Case of Neuralgia treated by Nerve-stretching, 883

COBBOLD, Dr. T. S.:
Lecture on Hydatid Disease. Delivered at the Middlesex Hospital Medical College, 850

GREENHOW, Dr. E. H.:
Croonian Lectures on Addison's Disease. Delivered before the Royal College of Physicians.
Lecture I., 327, 361
Lecture II., 395, 429
Lecture III., 463, 532

HILL, Mr. B.:
Clinical Lecture on Gleets. Delivered in University College Hospital, 223

HOLMES, Mr. T.:
Lectures on the Surgical Treatment of Aneurism in its various Forms. Delivered at the Royal College of Surgeons, in June, 1874.
Lecture V.—Popliteal Aneurism (continued), 593, 637

HUTCHINSON, Mr. J.:
Clinical Lecture on the Temperature and Circulation after Crushing of the Cervical Spinal Cord. Delivered at the London Hospital, 713, 747

JENNER, Sir W.:
Clinical Lecture on Croup, and the Diseases that resemble it, 1, 75
Address on the Etiology of Enteric Fever. Delivered before the Clinical Society of London, Jan. 12th, 1875, 259

LATHAM, Dr. P. W.:
Introductory Lecture (Abstract of an), 815, 849

LEE, Dr. R. J.:
Gulstonian Lectures (Abstract of) on Puerperal Fever Delivered at the Royal College of Physicians, London.
Lecture I., 298
Lecture II., 364

LEE, Mr. H.:
Hunterian Lectures on Syphilis, and on some Local Diseases affecting principally the Organs of Generation. Delivered at the Royal College of Surgeons, 783, 816

MARSHALL, Mr. J.:
Clinical Lecture on a Case of Varicose Veins treated by a New Operation, 113

MAUNDER, Mr. C. F.:
Lettsomian Lectures on the Surgery of the Arteries. (Illustrated by 27 Operations of Ligature by the Author, and other Cases of Disease and Injury.) Delivered before the Medical Society of London, Jan. 1875.
Lecture I.—On Aneurisms, 39, 77
Lecture II.—On Wounds, Hæmorrhages, and the Antiseptic Catgut Ligature, 293, 499, 531

MOXON, Dr. W.:
Clinical Lecture on Perinephritic Abscess, 602
Clinical Lecture on Treatment of Headache from Organic Intracranial Disease, 749

POORE, Dr. G. V.:
Lectures (Abstract of) on Electro-Therapeutics. Delivered at Charing-cross Hospital.
Lecture VII.—Electricity in Spasmodic Affections and "Writers' Cramp," 115

SAVORY, Mr. W. S.:
Clinical Lecture (Abstract of a) on the Relation of Tubercle to some other Affections of the Testis. Delivered at St. Bartholomew's Hospital, 151

SAWYER, Dr. J.:
Clinical Lecture (Abstract of a) on Phthisical Laryngitis. Delivered in the Queen's Hospital, Birmingham, 153

THOMPSON, Sir H.:
Clinical Lecture on Operative Means for the Relief of Patients suffering with Advanced Prostatic Disease. Delivered at University College Hospital, Dec. 18th, 1874, 3

Lediard, Dr. H. A., on the formation of stone in the bladder after injury to the spine, 536
Lee, Dr. R. J., on puerperal fever, 298, 364
——, Mr. H., on excision of the ankle-joint, 681; on ventilation, 775; on syphilis, 783, 816
Leech removed from the glottis, 184
Leeds, Hospital Sunday in, 322; health of, 590; infantile mortality in, 908
Leg, malignant tumour of the, necessitating amputation, 126
Legg, Dr. J. W., on the histology of the so-called nutmeg liver, 680
Leishman, Dr., on puerperal fever, 539
Leopold, Prince, 141, 179
Lepra anæsthetica, 272
Leprosy, 199; the cure of, 812; in Canada, 358
Leslie, Dr. P., general and special officers, 149
Leucorrhœa, chloralum lotion in, 913
Lever, Charles, the late, 711
Lewes, the fever at, 250, 284, 420
Life, a living, 394
Liebman, Dr. C., cancer of the cervix uteri, 440
Liernur system of sewerage, the, 139
Life, and on vital action in health and disease, 398, 432, 497, 565, 671, 715
—— assurance and medical examiners' fees, 72, 110; offices, the medical profession and, 218
—— at high pressure, 279
Liffey nuisance, the, 710
Ligamentum patellæ, rupture of, probably compound, diffuse cellulitis, death, 86
Lincoln, the drainage of, 61
Lincoln's Electro-therapeutics (review), 235
Lindsay, Mr. W. V., Dr. Hardwicke, 847, 913
Lipoma weighing upwards of 7 lb., 18
Lister, Mr. J., recent improvements in the details of antiseptic surgery, 365, 401, 434, 468, 603, 717, 787; in Germany, 868
Lister's method, 186
Lithia, French and German, 780
Lithotomy, performed twice on the same subject successfully, 610; in a case in which the patient was unable to pass water naturally for thirty-one years, 675; thirteen cases of, 760; and lithotrity, 524
Lithotrity, ulterior results of, 558
Liver, abscess of, recovery, 439
Liverpool, the social and sanitary state of, 96; Hospital Sunday in, 103; drunkenness in, 213; health of, 622; the waterclosets of, 711
—— Medical Institution, 106
—— Royal Infirmary, 908
—— Training School and Home for Nurses, 590
Livingstone's epitaph, 37
Llandudno, 590
Local Government Board, defiance of the, 100
Lockie, Dr. S., hyperpyrexia in acute rheumatism treated with the cold pack, 227
Locomotor ataxy, the nature of the disorder of co-ordination in, 161
London, health of, in 1874, 595; water-supply of, 609; epidemic disease round, 451
—— Fever Hospital, 284
—— University, 690; and State medicine, 64, 131, 143, 351; nomination for senator, 66
—— weekly returns, 27
Longevity, 311
Longmore's Instructions for Testing Vision in Recruits (review), 831
Loreta's Practical Treatise on Dislocations (review), 236
Lower animals, communication of diseases to the, 743
Lubbock, Sir J., Origin of Civilisation (review), 202
Lunacy, modern treatment of, 521
Lung, gangrene of, 437
Lupus erythematosus, 87
——, nasal, treatment of, by excision, 758
Luxations and fractures, elastic bands in the treatment of, 141
Lyell, Sir C., the inquest on, 347
Lyle, Dr. W. V., notes of a recent outbreak of diphtheria, 460
Lymphatics, and the capillaries, the, 527; of the leg, dilatation of the, 128
Lynch, Mr. J. R., an appeal, 529

Macdonald, Dr. W., obituary notice of, 180
M'Duff, Mr. R., effect of cold and heat on iron, 72
Mackay's omphalic mustard plasters, 274
Macdonald, Dr. K. N., presentation to, 911
Mackenzie, Dr. D. J., value of quinine in sciatic neuralgia, 358
——, Dr. W. M., presentation to, 526
Maclagan, Dr., on the germ theory of disease, 573
Macnamara's Diseases of the Eye (review), 728
Magnus's Mechanics (review), 728
Mammary abscess, prevention of, by rest, 165
Manby, Mr. F., scarlatina by post, 149; charity voting reform: the Medical Benevolent College, 528, 780
Manchester Infirmary, proposal to purchase the, 452
—— Medical Society, 254
—— provident dispensary scheme, 772
Manslaughter, a medical officer charged with, 290
Mapother, Dr. E. D., Lectures on Diseases of the Skin (review), 888
Marcet, Dr. W., laryngeal phthisis, 304
Marine lint, 779
Markham, Mr. C. R., Memoir of the Countess of Chinchon (review), 727
Marriage of cousins, the, 378
Marriages of consanguinity, 668, 745
Marsh neurosis, malignant, 793
Marshall, Mr. J., on a new operation for varicose veins, 113
Martin, Sir R., the late, 420; testimonial to, 491, 493, 737
Martini-Henry rifle, the, 37
Marylebone, the outbreak of enteric fever at, in 1873, 703
Mason, Mr. F., on a fatal case of suppurating hydatid cyst in the thigh, 791
——, Mr. S., lactation in the infant (?), 73
Mastoid cells, suppurative inflammation of, without affection of tympanum, 11
Materia Medica and Therapeutics (review), 53, 54
Maternal impressions, 290, 393
Maunder, Mr. C. F., on the surgery of the arteries, 39, 77, 293, 499, 531
Maurice, Dr. J. B., medical advertising in the provinces, 848
Mayer, Dr. A., ritual circumcision, 73
——, Mr. H. C., testing recruits, 375
——, Mr. H. P., the slaughtering of animals, 563
Mayo, Dr. C., 317
Mears Ashby Medical Dispensary, 781
Measles, recurrence of, four weeks after a first attack, 8; in the southern hemisphere, 865
Meat, diseased, 256, 291, 519
Medical Act and Philadelphian degrees, 481
—— advertising, 90, 102, 426, 735, 848

Medical charges, 846
—— charities, amalgamation of, 627
—— degrees for practitioners, 651
—— Directory, the, 28
—— ethics, 494, 529
—— honours, 218, 254
—— officers of health, salaries of, 184; troubles of, 221; grouping of districts of, 277
—— reform, 730

MEDICAL SOCIETIES.

CLINICAL SOCIETY.—Subcutaneous urethrotomy, 89—Naso-pharyngeal polypus, ib.—Hæmoptysis in a syphilitic patient, 90—Chronic periostitis of the humerus, 166—Subperiosteal excision of the os calcis, 167—Optic neuritis, ib.—Paralysis of the serratus magnus muscle, 271—Lepra anæsthetica, 272—Japanese paper as a dressing, 338—Elephantiasis græcorum, ib.—Palsy of the serratus magnus, ib.—Exceeding infrequency of the pulse, 339—Remarkable elevation of temperature (to 122° F.) after injury to the spine, 340—Remarkable case of hypertrophy of lower part of face, 407—Favus, ib.—Fatal pleuro-pneumonia in an opium-eater, ib.—Acute necrosis of the ulna, 408—Disseminated cerebro-spinal sclerosis, 545—Unusual case of lead-poisoning, ib.—Intra-cranial aneurism, 546—Pyæmia caused by acute suppuration of the middle ear, ib.—Acute general tuberculosis following chronic inflammation of the middle ear, ib.—Fibroma weighing 35 lb. successfully removed, 618—Disordered nerve-function in an infant, ib.—Scald of the glottis, with deposit of false membranes in the pharynx, larynx, and bronchi, ib.—On the various skin eruptions classed as hydroa, 725—Acute fatty degeneration of the heart, 726—Absence of pulsation in both radial arteries, the vessels being full of blood, ib.—Dilated heart from valvular disease, ib.—Hypertrophy of the lower part of the face, 792—Double fistula in ano, 793—Arterio-venous aneurism of the femoral vessels caused by a pistol-shot, ib.

HARVEIAN SOCIETY.—Annual address of Mr. J. R. Lane, 90

MEDICAL MICROSCOPICAL SOCIETY.—The value of investigations in pathological and physiological anatomy, 168

MEDICAL SOCIETY OF LONDON.—Injury to the face, 49—A review of the modern methods of treating stricture, ib.—Malignant tumour in the leg, necessitating amputation, 126—On the least sacrifice of parts, ib.—Hysterical anæsthesia, 198—Religious insanity, ib.—Presystolic murmur, 234—Relief of pain by the external use of chloral, ib.—The chemical statics of the brain, 235—Obscure abdominal disease, 306—The antecedents and treatment of tertiary syphilis, ib.—Unusually rapid action of the heart, 374—Rational treatment of certain forms of hemiplegia, ib.—Dr. Routh's inaugural address, 475—Spirometry, 476—Arrested phthisis, 513—Uræmic poisoning, ib.—Urethral injury, 547—Accidental concealed hæmorrhage, ib.—The identity or non-identity of croup and diphtheria, 615—Treatment of fibrinous separation in the heart, and large vessels, 616—Treatment of broken nose by forcible straightening and mechanical retentive apparatus, 649—On the results afforded by 400 cases of hæmorrhoids and prolapsus operated on by the clamp and cautery, ib.

OBSTETRICAL SOCIETY.—Obstetrics in bygone times, 15—The three forms of disease of the fibroid uterus: subperitoneal, interstitial, and submucous, ib.—The nature, cause, and treatment of membranous dysmenorrhœa, ib.—On retroversion of the gravid uterus, 50—On the indications afforded by the sphygmograph in the puerperal state, 52—Hydatidiform mole, 165—Ascitic fœtus, ib.—Prevention of mammary abscesses by the application of the principle of rest, ib.—Labour complicated by pelvic tumour and convulsions, 166—Uterus and appendages connected by adhesions to the large intestines, 307—The "couchaid," ib.—Cephalotripsy, ib.—Death from hæmorrhage into the pelvis, 308—Treatment of chlorosis and anæmia by phosphide of zinc, ib.—Clinical notes on the early course of cancer of the cervix uteri, 440—Epithelioma of the cervix uteri complicated with pregnancy, 441—On the relation of puerperal fever to the infective diseases and pyæmia, 537, 685, 824

PATHOLOGICAL SOCIETY.—Aneurism of the mitral valve, 49—Morbid ventricular growth, ib.—Epithelioma of the colon, 50—Colotomy for complete occlusion of the rectum, ib.—Cure of ulceration of the rectum by colotomy, ib.—Internal stricture, with rupture of the cæcum, ib.—Mr. Geo. Pollock's address, 126—Papillomatous tumour of the tongue, 127—Congenital dislocation of both hips, 128—Dilatation of the lymphatics of the leg, ib.—Elongation of the lower limb from chronic disease of the knee-joint, 198—Tumour of the arm, 199—Sarcomatous tumour of the eye, ib.—Incarcerated portion of bowel in the inguinal canal, 200—Syphilitic ulceration of the rectum, ib.—Enlargement of liver and spleen, ib.—Hæmorrhage into the joints in cases of gout, ib.—Congenital deficiency of the acromial ends of the clavicles, 270—Double aneurism of the thoracic aorta, ib.—Fatty degeneration of the muscles of the thigh, ib.—Occlusion of coronary arteries by atheroma of the aorta, 271—Obstruction of the renal artery by atheroma, ib.—Fibroid disease of the heart, ib.—Fatty tumour removed by herniotomy, ib.—Molluscum fibrosum, 336—Illustrations of the kind of teeth usually met with in zonular cataract, ib.—Aneurism of the heart, 338—Epithelioma, ib.—Diseased testis, ib.—Aneurism of the aorta, ib.—Tumour of the heart, 405—Skin disease associated with disease of the nervous system, ib.—Chronic herpes, ib.—Intestinal obstruction, ib.—Tumour of the scapula, 406—Fibro-fatty tumour of the zygomatic fossa, ib.—Papillomatous growth in an ovarian cyst, ib.—Discussion on the germ theory of disease, 511, 573, 644, 682—Blood-cyst in sarcoma, 724—Dry gangrene of the lower extremities, ib.—Prolapsus linguæ, ib.—Dislocation of the astragalus, ib.—Colloid cancer of the rectum, ib.—Annular constriction of the aorta, 725—Spontaneously cured aortic aneurism, ib.

ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—Pathology of lupus erythematosus, 87—Epidemic of malarious yellow fever on board H.M.S. "Doris" off Port Royal, Jamaica, in 1873, 88—Temperature in phthisis, 163—Treatment of fistulous openings by dilatation, 233—Diagnostic value of the ilio-femoral triangle in cases of injury to the hip, especially of impacted fracture, ib.—Laryngeal phthisis, 304—President's address, 335—Observations on some of the circumstances determining the form of crystalline deposits in the urine, and on some of the conditions under which renal and vesical calculi are produced, 373—Pulsating tumour of the left orbit, following fracture of the base of the skull, cured by ligature of the left common carotid artery, subsequently to injection of perchloride of iron, 473—On the prevalence and severity of syphilis among the troops quartered in London, as compared with the rarity of the disease among the soldiers in the garrisons of Paris and Brussels, 570—Practical observations on the pulmonary and cardiac complications of abdominal tumours, with remarks on bloodletting after surgical operations, 611—A case of left subclavian aneurism treated by temporary compression applied directly to the artery in the first part of its course, 612—On the histology of the so-called nutmeg liver, 680—Sequel to a paper on excision of the ankle-joint, 681—On the construction and use of a new form of cardiograph, 682—Treatment of nasal lupus by excision, 758—Double facial palsy, with loss of taste in the forepart of the tongue, 759—On the so-called partial dislocation of the humerus, ib.—Congenital deficiency of the peritoneum, resulting in intestinal obstruction and simulating an abdominal tumour, 760

Medical Society of London, 383
—— students, a vindication of, 487
—— Temperance Journal (review), 54
—— titles, 109
—— witnesses, detention of, in law courts, 657
Medicine, the present, past, and future of, 19, 417, 815, 849
—— chests and medical guides, 211, 256
Medicines, the preservation of, 744
Medico-Psychological Association, 32
Meerut, enteric fever among the troops at, 804
Melancholia eclampsia, 48
Menstruation, difficult, 14
Mercantile marine hospital service, 451
Merryweather, Mr., the late, 461; fund, 527
Mesopotamia, plague in, 701
Messer, Mr. F., medicine chests, 256
Metro-peritoneal fistula, in a case of successful ovariotomy, 44
Metropolis Water Bill, the, 515
Metropolitan Free Hospital, 878
—— mortality returns, the, 447
—— water-supply, 488, 626
Meymott, Mr. H., uterine sloth, 813
Microcephalic idiot, a, 148
Micrographic Dictionary, the (review), 92
Microtome, a modification of Dr. Rutherford's freezing, 855
Middlesex Hospital, 31
Midwife, trial of a, for manslaughter, 350, 384
Midwifery, practice of, by unqualified women, 172
—— engagements, 360
—— practice, dangers in, 780
Midwives and puerperal fever, 482
Military service, enforced, 738
Militia surgeons, 495, 847
Milk, the chemistry of, 141
Mill's Nature, the Utility of Religion, and Theism (review), 92
Milton's nosology and etiology, 710
Miners' nystagmus, observations on, 821
—— phthisis, 872
Minns, Mr. P., death certificates, 110

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

BELFORD HOSPITAL, FORT WILLIAM, N.B.—Case of distressing dyspepsia; administration of carbo lignis; marked relief, 824

BIRMINGHAM AND MIDLAND HOSPITAL FOR WOMEN.—Case of large pelvic hæmatocele suppurating and discharging through the rectum; counter-opening from vagina; recovery, 473

BIRMINGHAM CHILDREN'S HOSPITAL.—Intussusception, 439

BIRMINGHAM GENERAL HOSPITAL.—Successive aneurisms of the left and right popliteal arteries cured by pressure and flexion, 680

BRADFORD INFIRMARY.—Hydatid disease of the liver, 269—Abscess of the liver; recovery, 439—Hæmorrhage into the pons Varolii, 722

BRISTOL GENERAL HOSPITAL.—Lithotomy performed twice on the same subject successfully, 610

BRISTOL ROYAL INFIRMARY.—Enormous hydrocele situated in the abdomen, caused by undescended testicle, 233

CENTRAL LONDON SICK ASYLUM.—Melancholia eclampsia, 48

CHRISTCHURCH HOSPITAL, CANTERBURY, NEW ZEALAND.—Stricture of the urethra, 125

CROYDON UNION INFIRMARY.—Dissecting aneurism of aorta rupturing into left pleural cavity, 758

EDINBURGH ROYAL INFIRMARY.—Traumatic tetanus treated with extract of Calabar bean, 13—Excision of half of the tongue for epithelioma; recovery, 162—Sublingual cancroid ulcer; operation; recovery, 858

GUY'S HOSPITAL.—Aneurism of the femoral artery, 12, 47—Surgical notes, 196—Case of exophthalmic goitre associated with diabetes, 371—Insular sclerosis of the brain and spinal cord, 471, 609

HOSPITAL FOR THE EPILEPTIC AND PARALYSED.—Autopsy on a case of hemiopia with hemiplegia and hemiansæsthesia, 722—Remarks on a case of hemiopia with hemiplegia, ib.

KING'S COLLEGE HOSPITAL.—Aneurism of the left common femoral artery; ligature of the external iliac, 269—Amputation through shoulder-joint for malignant disease of the humerus, 302—Excision of the scapula for malignant disease, ib.

LISBON ROYAL NAVAL HOSPITAL.—Calculus in the ureter, 404

LONDON HOSPITAL.—Clinical observations on cases of disease of the nervous system, 85—Case of the pityriasis variety of congenital xeroderma, 124—Cases of nervous disease, with clinical remarks, 161—Fracture of the cervical spine; important facts as to temperature, &c., 267—Chorea in a dog; no emboli; persistence of movements after section of the cord, 610—Suppurative synovitis of the knee after a severe sprain; treatment by the aspirator and ice-bags; recovery without stiffening, 757—Surgical cases; autopsies, 857

MIDDLESEX HOSPITAL.—Two cases of epididymitis, treated with ice and small doses of tartar emetic with Epsom salts, 123—Cases of coxitis treated by rest, 195—Cases of coxitis treated by excision, 268, 303, 334, 371, 403

NORTHAMPTON GENERAL INFIRMARY.—Large cystic adenoma of the breast, 792

RADCLIFFE INFIRMARY, OXFORD.—Unilateral convulsion in a child, showing the value of chloral hydrate as a remedy, 372

ROYAL LONDON OPHTHALMIC HOSPITAL, MOORFIELDS.—Wound of the optic nerve from a stab with a knife without injury to the globe, 13

ROYAL WESTMINSTER OPHTHALMIC HOSPITAL.—Cases of blows on the eye, 86—Cases of cataract, 438, 472, 610—An unusual case of uræmic poisoning; epileptic convulsions, followed by coma; ultimate recovery, with total loss of sight, 823

ST. ANTOINE HÔPITAL, PARIS.—Case of difficult menstruation, with some clinical remarks, 14

ST. BARTHOLOMEW'S HOSPITAL.—Strangulated inguinal hernia; reduction by taxis *en masse*; continuance of symptoms; exploratory operation; detection of sac of intestine high up in the inguinal canal; recovery, 303

ST. GEORGE'S HOSPITAL.—Acute alcoholic poisoning, 13—Old ulcer of leg; skin-grafting; peculiar behaviour of engrafted skin, 124—Fracture of outer condyle of femur, simulating fractured patella, 231—Fracture of upper jaw; emphysema of face and neck, ib.

ST. BARTHOLOMEW'S HOSPITAL, CHATHAM.—Cases of delayed union of fractures, 232

ST. MARY'S HOSPITAL.—Gangrene of lung, 437—Case of traumatic tetanus treated successfully, 721

ST. THOMAS'S HOSPITAL.—Aneurism of right common iliac artery, 333—Gastrostomy for stricture

(cancerous?) of œsophagus; death from bronchitis forty days after operation, 678 — Suppurating hydatid cyst in the thigh; death; autopsy; clinical remarks, 791
SEAMEN'S HOSPITAL, GREENWICH. — Compound depressed fracture of cranium; pyæmia; death, 232 — Pseudo-muscular hypertrophic paralysis, 679
